ABOUT ME

Bachelor of engineering graduate with proficiency in MERN stack web development as well as expertise in software engineering, possesses a well-rounded skill set. This knowledge has been put into action through the completion of several projects, both in the realm of Javascript libraries and frameworks, as well as Java framework like Spring Boot. These projects are accessible on my GitHub account. I am assured that my capabilities will make a meaningful contribution to the organization.

OBJECTIVE

As a Full Stack Web Developer specializing in React, I possess a solid foundation in Javascript programming and a comprehensive understanding of the React JS. My interest lies in leveraging this knowledge to develop resilient and secure web applications. I believe that my enthusiasm for learning and dedication to improvement will contribute positively to any development team. Staying abreast of the latest advancements and trends in web development is a commitment I take seriously.
