

Sanket Kedare

FULL STACK DEVELOPER — NEXT.JS · NODE.JS · GENERATIVE AI · SYSTEM DESIGN

✉ sanketkedare200@gmail.com · 📞 +91 86248 51910 · 📍 Hyderabad, India (Open to remote) · 🌐 [LinkedIn](#) · 🐙 [GitHub](#) · 🌐 [Portfolio](#)

Full Stack Engineer with 2+ years of professional experience building enterprise-grade SaaS platforms and consumer-facing applications on the MERN/Next.js stack. Delivered an end-to-end LMS serving 5 user roles and 30+ subsystems from scratch. Shipped Gen AI workflows, optimized API response times by 40%, and improved user retention by 25% in production environments. Strong foundation in system design, RBAC, and scalable data modeling.

🔧 TECHNICAL SKILLS

Languages	JavaScript (ES6+) · TypeScript · HTML5 · CSS3 · SQL
Frameworks / Libraries	Next.js 16+ (App Router) · React.js 19+ · Node.js · Express.js · Fastify · React Query (TanStack Query v5) · Tailwind CSS · Framer Motion · Firebase (Auth, Firestore, Storage)
Tools / Platforms	GitHub · GitHub Actions (CI/CD) · Postman · Vercel · Render · Netlify · Cursor · Docker (basics)
Testing	Jest · React Testing Library · Vitest
Architecture & Concepts	System Design · Role-Based Access Control (RBAC) · Data Modeling · Data Structures & Algorithms (DSA) · RESTful APIs · Prompt Engineering · Generative AI Integration · Agile / Scrum

🏢 PROFESSIONAL EXPERIENCE

Full Stack Developer July 2025 – Present

VisionTech — Hyderabad (Full-time)

Next.js 16+ · TypeScript · Fastify · Firebase · React Query · Generative AI · REST APIs

- Architected and sole-built an enterprise LMS from scratch, implementing 5 distinct user roles (admin, instructor, learner, manager, reviewer) and 30+ modular subsystems, delivering the platform 2 weeks ahead of schedule.
- Designed normalized Firestore schemas and optimized Next.js API routes, reducing average API response times by 40% and cutting page load times from 4.2s to under 2.5s.
- Integrated Claude/OpenAI APIs with custom prompt engineering pipelines to automate backend content generation, reducing manual content authoring time by ~60% for instructors.
- Built and shipped the company's corporate website, an Employee Management System, and 3 high-impact client applications, maintaining a Lighthouse performance score above 90 across all properties.
- Implemented RBAC with granular permission matrices across all user roles, hardening platform security and eliminating unauthorized access incidents post-launch.

Frontend Developer Feb 2025 – June 2025

Viacerta Abroad — Remote (Full-time)

Next.js · Firebase · REST APIs · UI/UX

- Re-engineered the customer-facing platform with Next.js App Router and server components, improving First Contentful Paint by 35% and boosting mobile session duration by 25%.
- Rebuilt the blog engine with a modular CMS update system, enabling non-technical staff to publish and update content without developer intervention — reducing content turnaround from 2 days to same-day.
- Integrated Firebase for real-time data persistence and optimized REST API call patterns using React Query, reducing redundant network requests by 50%.

Teaching Assistant — Full Stack Web Development June 2024 – July 2024

AlmaBetter — Remote (Internship)

JavaScript · React · Node.js · MongoDB

- Mentored a cohort of 20+ students in MERN stack development; 85% of mentees completed capstone projects on schedule.
- Conducted weekly code reviews and debugging sessions, improving average project code quality scores by 30% over the cohort period.

🔑 KEY ENGINEERING PROJECTS

GrowSphere — Investment & Startup Networking Platform 🔗 Live Demo | 🐙 Repository

Problem: Entrepreneurs had no dedicated platform to connect with investors and showcase startups with real-time engagement.

MERN Stack · Firebase Auth & Firestore · REST APIs · Framer Motion · Socket.io

- Built a secure financial investment platform with JWT + Firebase Auth dual-layer authentication, achieving zero reported auth vulnerabilities.
- Implemented real-time chat using WebSocket (Socket.io), enabling instant investor-entrepreneur communication with sub-100ms message latency.
- Designed business listing pages with responsive layouts; received 4.6/5 UX score in peer reviews across 40+ testers.

React Tasks Suite — Performance Pattern Reference Library 🔗 Live Demo | 🐙 Repository

Problem: Junior React developers lacked a structured, production-grade reference for common patterns like state management, performance optimization, and side-effect control.

React.js · Context API · Redux Toolkit · Custom Hooks · Debouncing / Throttling

- Built 12+ modular React applications covering memoization, debouncing, throttling, Redux Toolkit, and Context API — each with documented pattern rationale.
- Repository adopted by 100+ developers as a study reference; cited feedback indicated an average 20% reduction in debugging time for listed patterns.

Cryptocurrency Dashboard — Live Market Tracker 🔗 Live Demo | 🐙 Repository

Problem: Retail crypto investors needed a fast, clean dashboard to track live prices and trends without relying on heavy bloated platforms.

React.js · Redux · CoinGecko API · Recharts

- Integrated CoinGecko REST API with real-time polling and Redux caching, delivering live price updates with <2s page load across all asset pages.
- Optimized asset rendering through lazy loading and memoization, keeping LCP under 1.8s and boosting user engagement metrics by 35% over a non-optimized baseline.

🎓 EDUCATION

Bachelor of Engineering (B.E.) 2020

Electronics and Telecommunication Engineering

Dr. Babasaheb Ambedkar Marathwada University

Strong analytical foundation in signal systems, data communication, and problem-solving directly applicable to distributed systems design.

🏆 CERTIFICATIONS

Full Stack Web Development 2024

AlmaBetter (Professional Certificate)

★ KEY DIFFERENTIATORS

- Shipped Gen AI integrations in production at an enterprise level — rare for 2yr experience
- End-to-end solo product ownership: from schema design to deployment
- Public GitHub with live deployed projects — verifiable skill signal
- Clear technical leadership trajectory: trainee → TA → full-stack architect
